

Compass Health Network provides a full continuum of behavioral healthcare services including comprehensive psychiatric and substance use disorder treatment services that focus on the needs of each person and utilize the most cost effective methods of care. We are a private, non-profit provider specializing in comprehensive mental health and substance use disorder treatment services to communities throughout Missouri.

Initially, we will provide an assessment, and then, together, we will reach an understanding of your treatment goals and what we can do to help you achieve these goals. Our team of professional staff, including psychiatrists, physicians, counselors, and social workers support our comprehensive approach to treatment.

We have over 40 years of experience helping families gain hope and wellness through treatment. Our programs integrate resources, helping to make the family a stronger, more resilient unit. There are over 2,000 of us to assist you. We believe in what we do, and it shows . . . in our history, in our programs, and most importantly, in the clients we serve.

Adult Services

Our adult program is designed to meet the individual needs of each person and their families impacted by drugs and alcohol. Our program focuses on the strengths of each person to facilitate achievement of goals in the areas of employment, social connectedness, criminal behavior, relapse, housing and family. Additionally we work in the areas of co-occurring mental health and alcohol and drug use disorders.

Compass Health Network utilizes evidence based practices to provide quality care to our clients with qualified and experienced staff. The average length of stay in residential will be determined by clinical necessity and could be up to 30 days.

Our adult residential program provides comprehensive treatment services for individuals with addiction disorders. We challenge ourselves to remain current with best practices in treatment services and, to this end, utilize a variety of evidenced-based treatment models ensuring that our consumers have the best opportunity for long-term success.
